# DOORS

## *Diversion Opening Opportunities for Recovery Services*

DOORS is a drug diversion program created by the Suffolk County District Attorney's Office and LICADD in an effort to connect members of the community who are suffering from substance use disorders with the treatment & services they need.

The District Attorney's Office often encounters individuals who may benefit from drug treatment, including criminal defendants, crime victims, witnesses, substance users identified through investigations into major drug traffickers, or members of the public who we meet in the community. Through the DOORS program, the District Attorney's Office will provide contact information when appropriate for the individuals suffering from substance use disorders to LICADD for outreach and referral to service.

LICADD's experienced clinicians will reach out to the identified person, encourage them to engage in treatment & connect them with a certified provider.

DOORS is the latest way in which the District Attorney's Office is working to aggressively combat the drug epidemic & keep Suffolk County safe.
